

The **GlycoSlim** meal replacement drink mix is tasty and low-glycemic and contains the nutrients your body needs to feel full and satisfied.\* Available in both rich chocolate and French vanilla flavors, GlycoSlim meal replacement drink mix is a delicious nutritional breakthrough.

### About GlycoSlim Meal Replacement Drink Mix:

**Helps** you feel satisfied.\*

**Low-glycemic.**†

This appetizing meal replacement drink mix contains various nutrients, including non-GMO soy protein and low-glycemic carbohydrates, formulated to help you feel satisfied. In addition, it includes essential fatty acids (beneficial fats) you need for optimal health.

Unlike other meal replacement drinks, our drink mix is low-glycemic with a glycemic index of 36 in skim milk and 33 in water.‡ Plus, it contains no artificial flavors, colors, sweeteners or preservatives often found in many commercial products. Consumption of refined carbohydrates triggers the release of insulin and increases appetite. Low-glycemic products will not stimulate the release of insulin, which can make you hungry.\*

Mannatech's **GlycoSlim** meal replacement drink mix—a terrific, nutritionally balanced drink mix for people with busy lifestyles.

‡ The glycemic index (GI) is a ranking (0 to 100) of carbohydrate-containing foods according to their impact on blood glucose levels. Foods with a higher GI raise blood glucose more than those with lower GI values. Low-GI or low-glycemic foods, like GlycoSlim meal replacement drink mix, have a GI of less than 55.
